Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

**NEODOL 25-7** 

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

# SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1 Product identifier

Trade name : NEODOL 25-7

Product code : V2453, V2668

Synonyms : Alcohols, C12-15, ethoxylated

CAS-No. : 68131-39-5

Other means of identification : 68002-97-1 (Alcohols, C10-16, Ethoxylated)

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Sub-

stance/Mixture

: Use as a surfactant in various applications

Recommended restrictions

on use

: This product must not be used in applications other than the

above without first seeking the advice of the supplier.

This product must not be used in applications other than those listed in Section 1 without first seeking the advice of the sup-

plier.

1.3 Details of the supplier of the safety data sheet

Company : Shell Chemicals Europe B.V.

PO Box 2334

3000 CH Rotterdam

Netherlands

#### **SECTION 2: Hazards identification**

### 2.1 Classification of the substance or mixture

Classification T.R. SEA No 28848

Acute toxicity, Category 4 H302: Harmful if swallowed.

Serious eye damage, Category 1 H318: Causes serious eye damage.

Short-term (acute) aquatic hazard, Cate-

gory 1

H400: Very toxic to aquatic life.

Long-term (chronic) aquatic hazard, Cat-

egory 2

H411: Toxic to aquatic life with long lasting effects.

#### 2.2 Label elements

### Labelling T.R. SEA No 28848

Hazard pictograms Signal word Danger PHYSICAL HAZARDS: Hazard statements

H302

Not classified as an environmental hazard

under GHS criteria. **HEALTH HAZARDS:** Harmful if swallowed.

H318 Causes serious eye damage. **ENVIRONMENTAL HAZARDS:** 

H400 Very toxic to aquatic life.

Toxic to aquatic life with long lasting effects. H411

Precautionary statements **Prevention:** 

> Do not eat, drink or smoke when using this P270

product.

P280 Wear protective gloves/ protective clothing/

eye protection/ face protection. Avoid release to the environment.

P273

Response:

P305 + P351 + P338 IF IN EYES: Rinse cautiously with wa-

ter for several minutes. Remove contact lenses, if present and easy to do. Continue

P310 Immediately call a POISON CENTER/ doc-

Storage:

No precautionary phrases.

Disposal:

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

P501 Dispose of contents/ container to an approved waste disposal plant.

### 2.3 Other hazards

None known.

# **SECTION 3: Composition/information on ingredients**

#### 3.1 Substances

Substance name : Alcohols, C12-15, ethoxylated

# **Hazardous components**

Chemical name	CAS-No. EC-No. Registration number	T.R. SEA No 28848	Concentration (% w/w)
C12-15 Alcohol Ethox- ylate	68131-39-5	Acute Tox.4; H302 Eye Dam.1; H318 Aquatic Acute1; H400 Aquatic Chronic2; H411	100

### **SECTION 4: First aid measures**

# 4.1 Description of first aid measures

General advice : Not expected to be a health hazard when used under normal

conditions.

Protection of first-aiders : When administering first aid, ensure that you are wearing the

appropriate personal protective equipment according to the

incident, injury and surroundings.

If inhaled : No treatment necessary under normal conditions of use.

If symptoms persist, obtain medical advice.

In case of skin contact : Remove contaminated clothing. Immediately flush skin with

large amounts of water for at least 15 minutes, and follow by washing with soap and water if available. If needed, transport

to the nearest medical facility for additional treatment.

In case of eye contact : Immediately flush eye(s) with plenty of water.

Remove contact lenses, if present and easy to do. Continue

rinsing.

Transport to the nearest medical facility for additional treat-

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# **NEODOL 25-7**

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

ment.

If swallowed : Do not induce vomiting. If victim is alert, rinse mouth and

drink 1/2 to 1 glass of water to help dilute the material. Do not give liquids to a drowsy, convulsing, or unconscious person. Transport to nearest medical facility for additional treatment.

### 4.2 Most important symptoms and effects, both acute and delayed

Symptoms : Eye irritation signs and symptoms may include a burning sen-

sation, redness, swelling, and/or blurred vision.

Skin irritation signs and symptoms may include a burning sen-

sation, redness, swelling, and/or blisters.

Defatting dermatitis signs and symptoms may include a burn-

ing sensation and/or a dried/cracked appearance.

Not considered to be an inhalation hazard under normal con-

ditions of use.

Possible respiratory irritation signs and symptoms may include a temporary burning sensation of the nose and throat, cough-

ing, and/or difficulty breathing.

Skin irritation signs and symptoms may include a burning sen-

sation, redness, swelling, and/or blisters.

Corrosive to eyes.

Contact can cause severe eye damage including chemical burns, pain, clouding of the eye surface, inflammation of the

eye, and may result in permanent loss of vision.

Swallowing of corrosive chemicals may cause immediate pain and burning in the mouth, throat, and stomach followed by

vomiting and diarrhea.

Burns and tearing of the esophagus and stomach are possi-

ble.

### 4.3 Indication of any immediate medical attention and special treatment needed

Treatment : IMMEDIATE TREATMENT IS EXTREMELY IMPORTANT!

Call a doctor or poison control center for guidance.

Treat symptomatically.

# **SECTION 5: Firefighting measures**

### 5.1 Extinguishing media

Suitable extinguishing media : Alcohol-resistant foam, water spray or fog. Dry chemical pow-

der, carbon dioxide, sand or earth may be used for small fires

only.

4 / 20 800001034100

TR

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

Unsuitable extinguishing

media

: None

### 5.2 Special hazards arising from the substance or mixture

Specific hazards during fire-

fighting

: Carbon monoxide may be evolved if incomplete combustion

occurs.

### 5.3 Advice for firefighters

Special protective equipment

for firefighters

Proper protective equipment including chemical resistant gloves are to be worn; chemical resistant suit is indicated if large contact with spilled product is expected. Self-Contained Breathing Apparatus must be worn when approaching a fire in a confined space. Select fire fighter's clothing approved to

relevant Standards (e.g. Europe: EN469).

Specific extinguishing meth-

ods

: Standard procedure for chemical fires.

Further information : Clear fire area of all non-emergency personnel.

Keep adjacent containers cool by spraying with water.

### **SECTION 6: Accidental release measures**

### 6.1 Personal precautions, protective equipment and emergency procedures

Personal precautions

Observe all relevant local and international regulations.

Notify authorities if any exposure to the general public or the

environment occurs or is likely to occur.

Local authorities should be advised if significant spillages

cannot be contained.

Avoid contact with spilled or released material. Immediately remove all contaminated clothing. For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet. For guidance on disposal of spilled material see

Section 13 of this Safety Data Sheet. Stay upwind and keep out of low areas.

Be ready for fire or possible exposure.

# 6.2 Environmental precautions

**Environmental precautions** 

: Prevent from spreading or entering into drains, ditches or rivers by using sand, earth, or other appropriate barriers.

Use appropriate containment to avoid environmental contami-

nation.

Ventilate contaminated area thoroughly.

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# **NEODOL 25-7**

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0 SDS Number: 800001034100

### 6.3 Methods and material for containment and cleaning up

Methods for cleaning up : For large liquid spills (> 1 drum), transfer by mechanical

means such as vacuum truck to a salvage tank for recovery or safe disposal. Do not flush away residues with water. Retain as contaminated waste. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove contaminated soil and dispose of safely For small liquid spills (< 1 drum), transfer by mechanical means to a labeled, sealable container for product recovery or safe disposal. Allow residues to evaporate or soak up with an appropriate absorbent material and dispose of safely. Remove

contaminated soil and dispose of safely.

#### 6.4 Reference to other sections

For guidance on selection of personal protective equipment see Section 8 of this Safety Data Sheet., For guidance on disposal of spilled material see Section 13 of this Safety Data Sheet.

# **SECTION 7: Handling and storage**

### 7.1 Precautions for safe handling

Technical measures : Avoid breathing of or direct contact with material. Only use in

well ventilated areas. Wash thoroughly after handling. For guidance on selection of personal protective equipment see

Section 8 of this Safety Data Sheet.

Use the information in this data sheet as input to a risk assessment of local circumstances to help determine appropriate controls for safe handling, storage and disposal of this

material.

Ensure that all local regulations regarding handling and stor-

age facilities are followed.

Advice on safe handling : Avoid contact with skin, eyes and clothing.

Do not empty into drains.

Hygiene measures : Read in conjunction with the Exposure Scenario for your spe-

cific use contained in the Annex.

Wash hands before eating, drinking, smoking and using the

toilet. Launder contaminated clothing before re-use.

Do not ingest. If swallowed, then seek immediate medical

assistance. Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping. Define procedures for safe handling and maintenance of controls. Educate and train workers in the hazards and control measures relevant to normal activities associated with this product. Ensure appropriate

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

**NEODOL 25-7** 

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation. Drain down system prior to equipment break-in or maintenance. Retain drain downs in sealed storage pending disposal or subsequent recycle. 10

# 7.2 Conditions for safe storage, including any incompatibilities

Requirements for storage areas and containers

: Refer to section 15 for any additional specific legislation covering the packaging and storage of this product.

Other data : Tanks should be fitted with heating coils in areas where the

ambient temperatures are below the recommended product handling temperatures. Heating coil skin temperatures should not exceed 100 °C. Bulk storage tanks should be diked (bunded). Vapours from tanks should not be released to atmosphere. Breathing losses during storage should be controlled by a suitable vapour treatment system. Nitrogen blanket recommended for large tanks (capacity 100 m3 or higher). Insulation (lagging) will minimize heat loss in areas of low ambient temperature. Tanks should be fitted with heating coils in areas where ambient conditions can result in handling temperatures below the freezing point/pour point of the product.

Packaging material : Suitable material: Stainless steel., Epoxy resins, Polyester.

Unsuitable material: Aluminum, Copper., Copper alloys.

7.3 Specific end use(s)

Specific use(s) : Not applicable.

Ensure that all local regulations regarding handling and stor-

age facilities are followed.

### **SECTION 8: Exposure controls/personal protection**

### 8.1 Control parameters

### Biological occupational exposure limits

No biological limit allocated.

# Predicted No Effect Concentration (PNEC) according to Regulation (EC) No. 1907/2006:

C12-15 Alcohol Ethoxylate : Exposure assessments have not been presented for the envi-

ronment therefore PNEC values not required.

### 8.2 Exposure controls

# **Engineering measures**

Adequate ventilation to control airborne concentrations below the exposure guidelines/limits.

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# NEODOL 25-7

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

Where material is heated, sprayed or mist formed, there is greater potential for airborne concentrations to be generated.

Eye washes and showers for emergency use.

The level of protection and types of controls necessary will vary depending upon potential exposure conditions. Select controls based on a risk assessment of local circumstances. Appropriate measures include:

#### General Information

Always observe good personal hygiene measures, such as washing hands after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Discard contaminated clothing and footwear that cannot be cleaned. Practice good housekeeping.

Define procedures for safe handling and maintenance of controls.

Educate and train workers in the hazards and control measures relevant to normal activities associated with this product.

Ensure appropriate selection, testing and maintenance of equipment used to control exposure, e.g. personal protective equipment, local exhaust ventilation.

Drain down system prior to equipment break-in or maintenance.

Retain drain downs in sealed storage pending disposal or subsequent recycle.

Do not ingest. If swallowed, then seek immediate medical assistance.

### Personal protective equipment

Eye protection : Wear goggles for use against liquids and gas.

Wear full face shield if splashes are likely to occur.

Hand protection

Remarks

: Where hand contact with the product may occur the use of gloves approved to relevant standards (e.g. Europe: EN374, US: F739) made from the following materials may provide suitable chemical protection. Longer term protection: Nitrile rubber gloves. Incidental contact/Splash protection: PVC or neoprene rubber gloves. For continuous contact we recommend gloves with breakthrough time of more than 240 minutes with preference for > 480 minutes where suitable gloves can be identified. For short-term/splash protection we recommend the same but recognize that suitable gloves offering this level of protection may not be available and in this case a lower breakthrough time maybe acceptable so long as appropriate maintenance and replacement regimes are followed. Glove thickness is not a good predictor of glove resistance to a chemical as it is dependent on the exact composition of the glove material. Glove thickness should be typically greater than 0.35 mm depending on the glove make and model. Suitability and durability of a glove is dependent on usage, e.g. frequency and duration of contact, chemical resistance of glove material, dexterity. Always seek advice from glove suppliers. Contaminated gloves should be replaced. Personal hygiene is a key element of effective hand care. Gloves must only be worn on clean hands. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended.

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# **NEODOL 25-7**

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

Skin and body protection

: Skin protection is not required under normal conditions of use. For prolonged or repeated exposures use impervious clothing over parts of the body subject to exposure.

If repeated and/or prolonged skin exposure to the substance is likely, then wear suitable gloves tested to relevant Standard,

and provide employee skin care programmes.

Respiratory protection

: If engineering controls do not maintain airborne concentrations to a level which is adequate to protect worker health, select respiratory protection equipment suitable for the specific conditions of use and meeting relevant legislation. Check with respiratory protective equipment suppliers. Where air-filtering respirators are unsuitable (e.g. airborne concentrations are high, risk of oxygen deficiency, confined space) use appropriate positive pressure breathing apparatus. Where air-filtering respirators are suitable, select an appropriate combination of mask and filter.

If air-filtering respirators are suitable for conditions of use: Select a filter suitable for the combination of organic gases and vapours and particles [Type A/Type P boiling point >65°C

(149°F)].

Protective measures

: Personal protective equipment (PPE) should meet recommended national standards. Check with PPE suppliers.

Thermal hazards : Not applicable

### **Environmental exposure controls**

General advice

: Local guidelines on emission limits for volatile substances must be observed for the discharge of exhaust air containing vapour.

Minimise release to the environment. An environmental as-

sessment must be made to ensure compliance with local environmental legislation.

Information on accidental release measures are to be found in

section 6.

# **SECTION 9: Physical and chemical properties**

# 9.1 Information on basic physical and chemical properties

Appearance : Hazy to semi-solid liquid.

Colour : Data not available

Odour : mild

Odour Threshold : Data not available

9.2 Other information

Surface tension : Data not available

Conductivity: > 10,000 pS/m

A number of factors, for example liquid temperature, presence of contaminants, and anti-static additives can greatly influence the conductivity of a liquid, This material is not expected to be

a static accumulator.

Molecular weight : Data not available

# **SECTION 10: Stability and reactivity**

# 10.1 Reactivity

Stable at normal ambient temperature and pressure.

May oxidise in the presence of air.

### 10.2 Chemical stability

Stable under normal conditions.

# 10.3 Possibility of hazardous reactions

Hazardous reactions : None known.

# 10.4 Conditions to avoid

Conditions to avoid : Extremes of temperature and direct sunlight.

Product cannot ignite due to static electricity.

# 10.5 Incompatible materials

Materials to avoid : Copper.

Copper alloys.

Strong oxidising agents.

Aluminum

### 10.6 Hazardous decomposition products

None expected under normal use conditions.

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# **SECTION 11: Toxicological information**

### 11.1 Information on toxicological effects

Information on likely routes of : Exposure may occur via inhalation, ingestion, skin absorption,

exposure skin or eye contact, and accidental ingestion.

### **Acute toxicity**

### **Components:**

C12-15 Alcohol Ethoxylate:

Acute oral toxicity : LD50 (Rat): > 300 - <= 2000 mg/kg

Remarks: Harmful if swallowed.

Acute inhalation toxicity : Remarks: Low toxicity by inhalation.

Acute dermal toxicity : LD50 (Rabbit): > 2000 - <= 5000 mg/kg

Remarks: May be harmful in contact with skin.

#### Skin corrosion/irritation

### **Components:**

# C12-15 Alcohol Ethoxylate:

Remarks: Causes mild skin irritation.

Repeated exposure may cause skin dryness or cracking.

### Serious eye damage/eye irritation

# **Components:**

# C12-15 Alcohol Ethoxylate:

Remarks: Causes serious eye damage.

### Respiratory or skin sensitisation

# **Components:**

# C12-15 Alcohol Ethoxylate:

Remarks: Not a sensitiser.

Based on available data, the classification criteria are not met.

# Germ cell mutagenicity

### **Components:**

# C12-15 Alcohol Ethoxylate:

Genotoxicity in vivo : Remarks: Non mutagenic

Based on available data, the classification criteria are not met.

#### Carcinogenicity

# **SECTION 13: Disposal considerations**

### 13.1 Waste treatment methods

Product : Recover or recycle if possible.

It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste classification and disposal meth-

ods in compliance with applicable regulations.

Do not dispose into the environment, in drains or in water

courses.

Waste product should not be allowed to contaminate soil or

water.

Disposal should be in accordance with applicable regional,

national, and local laws and regulations.

Local regulations may be more stringent than regional or na-

tional requirements and must be complied with.

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# **NEODOL 25-7**

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

Contaminated packaging : Drain container thoroughly.

After draining, vent in a safe place away from sparks and fire.

Residues may cause an explosion hazard. Do not puncture, cut, or weld uncleaned drums. Send to drum recoverer or metal reclaimer.

#### 14.5 Environmental hazards

**ADR** 

Environmentally hazardous : yes

rid

Environmentally hazardous : yes

**IMDG** 

Marine pollutant : yes

14.6 Special precautions for user

Remarks : Special Precautions: Refer to Section 7, Handling & Storage,

for special precautions which a user needs to be aware of or

needs to comply with in connection with transport.

# 14.7 Maritime transport in bulk according to IMO instruments

Pollution category : Y Ship type : 2

Product name : Alcohol (C12-C16) poly (7-19) ethoxylates

**Additional Information**: This product may be transported under nitrogen blanketing.

Nitrogen is an odourless and invisible gas. Exposure to nitrogen enriched atmospheres displaces available oxygen which may cause asphyxiation or death. Personnel must observe strict safety precautions when involved with a confined space

entry.

Transport in bulk according to Annex II of Marpol and the IBC

Code

# **SECTION 15: Regulatory information**

# 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

KKDIK (30105 (Bis)) - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles (Annex 17)

: Conditions of restriction for the following entries should be considered: Entry number 3

Other regulations : The regulatory information is not intended to be comprehen-

sive. Other regulations may apply to this material.

Prepared in accordance with the provisions of KKDIK Annex-2 Regulation, 23.06.2017, No: 30105

# **NEODOL 25-7**

Initial release date: 2010/02/05 Revision Date: 28.02.2025

Version 3.0

SDS Number: 800001034100

Regulations on the health and safety precautions for chemicals in the workplace. Regulations on the fire protection of buildings. Regulations on the prevention of industrial accidents and the reduction of their effects.

# The components of this product are reported in the following inventories:

AIIC : Listed

DSL : Listed

IECSC : Listed

ENCS : Listed

TSCA : Listed

KECI : Listed

PICCS : Listed

NZIoC : Listed

TCSI : Listed

# 15.2 Chemical safety assessment

A Chemical Safety Assessment is not required for this substance/mixture. A Chemical Safety Assessment is not required for this substance.
